EDUCATION

International Institute of Information Technology

Bachelor of Computer Engineering, **CGPA - 8.51**

Bhubaneswar, Odisha

Aug 2023 – Jul 2027

DAV Public School, CBSE (Class XII)

PCM Stream — Score: **98.2%**

Angul, Odisha

May 2022

EXPERIENCE

Technical Intern

NALCO India

June 2025

Angul, Odisha

- Designed and maintained **SQL Server databases** handling production-grade datasets
- Automated **data storage and retrieval pipelines** to support analytics-driven applications
- Collaborated cross-functionally to deploy a **responsive ASP.NET system** improving data accessibility

Open Source Contributor

GirlScript Summer of Code

Oct 2024 – Nov 2024

- Contributed to **5+ repositories** with a **90% pull request acceptance rate**
- Refactored **data processing logic** and resolved **performance-critical bugs**

PROJECTS

Credit Score Prediction System | Python, Pandas, NumPy, Scikit-learn, Flask, HTML, CSS

- Built a **production-ready end-to-end ML system** to predict credit risk from real-world financial data
- Implemented **robust preprocessing and feature alignment** to prevent training-inference mismatch and runtime errors
- Deployed the trained model via a **Flask web application** enabling real-time predictions through a user-friendly interface

Air Quality Index Prediction Model | Python, Numpy, Pandas, Matplotlib, Seaborn, Scikit-Learn, Flask, Docker

- Built an **end-to-end machine learning pipeline** for AQI forecasting using **real-world pollutant data** (PM2.5, NO2, CO)
- Performed **data cleaning, feature selection, and exploratory data analysis (EDA)** using Pandas and NumPy
- Trained and evaluated **Linear Regression, Random Forest, and XGBoost** models to improve predictive accuracy
- Generated **interpretable outputs** to support data-driven public health decisions

CERTIFICATIONS

Tools for Data Science

IBM – Coursera

Dec 2025

Python for Data Science, AI & Development

IBM – Coursera

Jan 2026

Data Analytics Job Simulation

Deloitte - Forage

Apr 2026

TECHNICAL SKILLS

Languages: Python, C++, Java

Data & ML: Pandas, NumPy, Matplotlib, Scikit-learn, XGBoost

Databases: MySQL, Microsoft SQL Server, MongoDB

Frameworks & Tools: ReactJS, Flask, ASP.NET, Git, GitHub

Deployment: Docker, Microsoft Azure
